

Education is child's play

# At MATER GARDENS CHARTER SCHOOL A WORLD WIDE INNOVATIVE PROGRAM FOR ENHANCEMENT OF THINKING ABILITIES AND LIFE SKILLS THROUGH STRATEGY AND MIND GAMES

Mind Lab is an innovative and research based program that helps children ages 4-18 enhance their cognitive, social and emotional skills using internationally-acclaimed thinking games. These games encourage deduction and induction procedures, teamwork, communication and the art of graceful winning and losing. Mind Lab has developed a unique approach that fills the gap between school education and real life challenges by teaching students how to think rather than what to think. During the course the concepts are applied to real life situations, allowing children to make transference from game scenarios to real life experiences and scholastic achievements. **The extensive research conducted by Yale University endorses that the Mind Lab Method significantly improves math and verbal scores as well as other important thinking and life skills.**

**Come and join us for a FREE DEMO class on Wednesday, February 1st at 4:30 PM in the media center  
Get engaged in the magnificent world of games!**
